After a perhaps exhausting journey we heartly welcome you to this paradise. Dont't be confused about the name. After buying the villa this year it will be renamed to villa atlantico in the following months.

After entering the garden door, you will find the keys in the wallbox at the backside of the garage (you must walk through the wooden backdrop at the left side of the house). There are 2 keys for the front door, 1 Key for the backside-door of the garage and 1 Safe-Key.

If you arrive late it might be helpful to bring a light to operate the combination lock. The keycode is 1904.

You have free Wifi-Access. WIFI-Network: Strong_V7W5 or ...EXT Password: ybE829uhf9

The safe is on the right of the television in the sideboard. Operating instructions inside the door.

If the gas runs out you will find the gas cylinders at the right side of the house. The container is unlocked. You can switch to the second bottle. Please order a new gas bottle (see below). I'll refund you immediately. In case you cannot order a replacement, please inform me.

The gardener Bruno will come once or twice a week to water the garden. The pool attendant Will is coming on Monday afternoon. They have free access. You need not to open.

We heartly wish you a wonderful and relaxing stay.

Please note and respect the house rules, that you got by email, and tell them to your partner and children as well.
